

# Santa Barbara Regional Health Authority

## FORMULARY LIST AND CODE 1 DEFINITIONS OF RESTRICTIONS

EFFECTIVE APRIL 2003

The Health Authority mandates generic substitution when an “AB” rated equivalent generic product is available. Generally if a prescriber wants a brand name drug and designates *Do Not Substitute* on the prescription, then a MRF must also be submitted explaining why a brand name drug is required.

Prescription quantities should not exceed a 30-day supply of medication unless specified as an exception to this rule. On the following pages, drugs that must be dispensed as 100-units and are an exception to the 30-day supply rule are indicated by a #.

# SBRHA FORMULARY LIST – April 2003

<b>A</b>	Alum. Hydroxide Magnesium, Hyd. & Simethicone	Auranofin	Budesonide MDI
Acyclovir*	Alupent	Aurothioglucose	Budesonide Suspension*
Abacavir, Lamivudine, & Zidovudine*	Amantadine	Avalide	Bupropion HCL
Acarbose	Amaryl	Avandamet	Bupropion HCL SR*
Accolate	Ambenonium Chloride	Avandia	Buspar
Accupril	Ambenyl	Avapro	Buspirone
Accuzyme	Ambien	Avelox*	Busulfan
Acebutolol	Amikacin Sulfate	Aventy	Butalbital/Caffeine/ Acetaminophen
Acetaminophen	Amikin	Axert	Butalbital/Caffeine/Aspirin
Acetazolamide #	Aminophylline	Azathioprine	Butenafine HCL
Acetic Acid	Amiodarone	Azelastine	Butoconazole Nitrate
Acetic Acid w/Aluminum Acetate	Amitriptyline	Azithromycin*	
Acetic Acid w/Hydrocortisone	Amitriptyline HCL, Perphenazine	Azopt	
Acetical	Amlodipine/Benazepril HCL	AZT	
Acetohexamide	Amlodipine Besylate	Azulfidine	
Acetylcysteine	Amoxicillin/Clavulanate Potassium		
Achromycin V	Amoxicillin Trihydrate	<b>B</b>	
Aclovate	Amphetamine, Mixed Salts*	B-6 Tabs	
Actifed	Amphojel	B-12 Injectable	
Actifed w/Codeine	Amphotericin B	Bacitracin Ophth. Oint.	
Actigall	Ampicillin	Bacitracin Topical Oint.	
Actiq Lozenge*	Amprenavir*	Bacitracin, Polymyxin Ophth. Oint	
Activella	Anafranil	Baclofen	
Actonel	Anagrelide HCL	Bactrim	
Actos	Anastrozole	Balsalazide Disodium	
Acular	Ancef	Bay Rho-D*	
Acyclovir*	Ansaid*	Beclomethasone Dipropionate	
Adalat	Antabuse	Beclomethasone Dipropionate Monohydrate	
Adderal*	Antacids (most)	Belladonna Alkaloids w/Phenobarbital	
Adrenaline	Antiminth	Benadryl	
Amikacin	Antipyrine and Benzocaine	Benazepril HCL	
Advair	Antivert	Benemid	
Aerobid	Anturane	Benicar	
Aerobid-M	Anzemet	Bentyl	
Agenerase*	APAP	Benzoyl Peroxide	
Agrylin	APAP w/Codeine	Benzotropine Mesylate	
AK-Neo-Dex	Apraclonidine	Betapace	
Alamast	Apresoline	Betaxolol	
Alavert#	Aquamephyton	Betaxolol HCL Ophth. Drop	
Albuterol	Aramine	Bethanechol Chloride	
Alclometasone Dipropionate	Arava	Betimol	
Aldactazide	Aredia	Betoptic	
Aldactone #	Aricept*	Bexarotene	
Aldara	Arimidex	Biaxin*	
Aldesleukin	Aristocort	Biaxin XR*	
Aldomet	Arsenic Trioxide	Bicalutamide	
Aldoril	Artane	BiCNU	
Alemtuzumab	Asparaginase	Bisacodyl Suppos.	
Alendronate Sodium	Aspirin #	Bismuth Subsalicylate	
Alesse	Aspirin Chewable	Bisoprolol Fumarate	
Alitretinoin*	Aspirin w/Codeine	Bitolterol Mesylate	
Alkeran	Aspirin - long acting	Blenoxane	
Allopurinol	Astelin	Bleomycin Sulfate	
Almotriptan	Atapryl	Bleph-10	
Alomide Ophth.	Atarax	Blephamide	
Alphagan P	Atenolol #	Blocadren	
Alrex	Ativan	Bonine	
Altace	Atorvastatin Calcium	Brethaire	
Alternagel	Atovaquone*	Brethine	
Amphetamine	Atropine	Brevicon	
Amoxicillin	Atropisol	Bricanyl	
Alu-Tab	Atrovent	Brimonidine	
Alum. Hydroxide Gel	Augmentin	Brinzolamide	
	Auralgan	Bromocriptine Mesylate

# CODE 1 DEFINITIONS OF RESTRICTIONS

Effective April 2003

Generic(TRADE) Name	
Abacavir (ZIAGEN)	restricted to use in treatment of HIV disease
Abacavir/Lamivudine/Zidovudine (TRIZIVIR)	restricted to use in treatment of HIV disease
Acyclovir (ZOVIRAX)	restricted to use in treatment of 1) Genital Herpes (HS II) 2) Immunocompromised patients 3) Shingles (Herpes Zoster)
Alitretinoin (PANRETIN)	restricted to use in the treatment of cutaneous lesions of Kaposi's Sarcoma in AIDS pts
Amphetamine, Mixed Salts (ADDERAL)	restricted to a diagnosis of Attention Deficit Disorder
Amprenavir (AGENERASE)	restricted to use in treatment of HIV disease
Atovaquone (MEPRON)	for use only in treatment or prevention of Pneumocystis pneumonia in patients who are intolerant of trimethoprim-sulfamethoxazole
Azithromycin (ZITHROMAX)	1) 600 mg tablets restricted to use in prevention of Mycobacterium infections 2) Suspension 200mg/5cc restricted to < 8 yrs old, or failure of a trial of first line Antibiotic at any age
Budesonide Suspension (PULMICORT RESPULES)	Restricted to use in children < 8 yrs of age
Bupropion SR for smoking cessation	pharmacy needs to have a letter or certificate of enrollment verify that the pt is in a behavioral modification smoking

---

(ZYBAN)

cessation program

## CODE 1-DEFINITIONS OF RESTRICTIONS – April 2003

---

Carvedilol (Coreg)	restricted to having CHF
Cefaclor (CECLOR)	for use only in pts> 50 yrs old with lower respiratory tract infections (RTI)
Cefdinir (OMNICEF)	restricted to use in pts< 8 yrs old
Cefixime (SUPRAX)	1) liquid: for use only in pts< 8 yrs old with OM 2) tablet: restricted to the use in treatment of Neisseria gonorrhoeae
Cefprozil (CEFZIL)	restricted for use in pts< 8 yrs of age
Chlordiazepoxide (LIBRIUM)	for use only in treatment of alcoholism
Cidofovir (VISTIDE)	restricted to use in treatment of HIV disease
Cilostazol (PLETAL)	1) for use in pts> 65 yrs of age diagnosed with intermittent claudication 2) for diabetic pts of any age with intermittent claudication
Ciprofloxacin (CIPRO)	for use in the treatment of: 1) pts> 50 yrs old with lower RTI 2) osteomyelitis 3) pulmonary exacerbations in pts with Cystic Fibrosis 4) Urinary tract infections (UTI)
Ciprofloxacin (CIPRO XR)	restricted to use in uncomplicated urinary tract infection
Clarithromycin (BIAXIN)	restricted to: 1) infections caused by Mycobacterium 2) Active duodenal ulcer associated with Helicobacter Pylori
Clonazepam (KLONOPIN)	restricted to the diagnoses of schizophrenia or seizures
Clopidogrel Bisulfate	limited to treatment of pts with documented atherosclerosis such as

## CODE 1-DEFINITIONS OF RESTRICTIONS – April 2003

---

(PLAVIX)	recent strokes, MI or established peripheral vascular disease
closporine (NEORAL, & SANDIMMUNE)	restricted to use for organ transplant
Delaviridine Mesylate (RESCRIPTOR)	restricted to use in the treatment of HIV disease
Dextroamphetamine Sulfate (DEXEDRINE)	restricted to the diagnosis of ADD
Diazepam (VALIUM)	restricted to use in Cerebral Palsy, Athetoid states or spinal cord degeneration
Diclofenac Sodium (VOLTAREN)	restricted to use for arthritis
Didanosine (VIDEX, Ddl)	restricted to use in the treatment of HIV disease
Diflunisal (DOLOBID)	restricted to use for arthritis
Donepezil HCl (ARICEPT)	restricted to treatment of mild to moderate dementia of the Alzheimer's type
Doxycycline Hyclate (PERIOSTAT)	20mg tablet or capsule is restricted for use as an adjunct therapy to aggressive local dental measures in adults with peridontitis
Dronabinol (MARINOL)	restricted to use in the treatment of anorexia associated with weight loss in pts with AIDS
Efavirenz (SUSTIVA)	restricted to use in the treatment of HIV disease disease
Epoetin alfa (EPOGEN or PROCRIT)	for use in the treatment of anemia due to: 1) Zidovudine therapy 2) cancer chemotherapy 3) or chronic renal failure
Ezetimibe (Zetia)	restricted to must be on a HMG-CoA reductase inhibitor ("statin" therapy)
Famciclovir (FAMVIR)	restricted for use to: 1) Genital Herpes 2) Shingles (Herpes Zoster) 3) Herpes Simplex infection in HIV pt

## CODE 1-DEFINITIONS OF RESTRICTIONS – April 2003

---

Fenoprofen (NALFON)	restricted to use for arthritis
Fentanyl, transdermal (DURAGESIC)	restricted for use in cancer patients with chronic severe pain
Fentanyl Citrate Transmucosal,oral (ACTIQ)	restricted to use in pts with breakthrough pain who are tolerant to opioid therapy
Fluconazole (DIFLUCAN)	1) Cancer and HIV patients 2) for the treatment of vaginal candidiasis 3) treatment of Coccidioides Immitis infections
Flurbiprofen (ANSAID)	restricted to use for arthritis
Foscarnet Sodium (FOSCAVIR)	restricted to use in treatment of HIV disease
Galantamine Hydrobromide (REMINYL)	restricted to treatment of mild to moderate dementia of the Alzheimer's type
Ganciclovir (CYTOVENE)	restricted to use in treatment of AIDS related conditions
Immune Globulin (GAMMAGARD, IVEEGAM, SANDOGLOBULIN)	for use only in the pediatric population (<13) with HIV disease
Immune Globulin Rh <sub>0</sub> (BAYRHO-D)	restricted for use in the treatment of ITP secondary to HIV disease
Indinavir Sulfate (CRIXIVAN)	restricted to use in the treatment of HIV disease
Interferon alfacon-1 (INFERGEN)	restricted to use in the treatment of chronic hepatitis C infection
Itraconazole (SPORANOX)	restricted to use in patients with an AIDS related condition
Ketoprofen (ORUDIS)	restricted to use for arthritis
Lactulose (CEPHULAC, DUPHALAC, ENULOSE)	restricted to treatment of liver disease
Lamivudine (EPIVIR)	restricted to use in the treatment of HIV disease

## CODE 1-DEFINITIONS OF RESTRICTIONS – April 2003

---

Lamivudine, & Zidovudine (COMBIVIR)	restricted to use in the treatment of HIV disease
Leuprolide Acetate (LUPRON)	only for use in treatment of cancer
Lidocaine/Prilocaine (EMLA)	restricted for use in patients < 21 yrs of age and require a needle procedure
Linezolid (ZYVOX)	may only be used following discharge from inpt. hospitalization when pt was on Linezolid or Quinupristin/Dalopriston immediately prior to discharge. Max of a 21 day supply
Lopinavir & Ritonavir (KALETRA)	restricted to use in the treatment of HIV disease
Losartan (Cozaar)	Must have failed 2 formulary ACEI except cough
Losartan HCTZ (Hyzaar)	Must have failed 2 formulary ACEI except cough
Methylphenidate HCL immediate & sustained release (RITALIN)	restricted for use in Attention Deficit Disorder.
Methylphenidate HCL extended release (CONCERTA)	restricted for use in Attention Deficit Disorder and age 4-16 years
Metoprolol succinate (Toprol XL)	restricted to having CHF
Mitoxantrone (NOVANTRONE)	restricted to use in the treatment of Cancer
Montelukast (Singular)	restricted to use for <b>asthma only</b> (Allergic rhinitis requires a MRF)
Moxifloxacin (AVELOX)	restricted to use in pts > 50 yrs old with lower respiratory tract infection
Mycophenolate Mofetil (CELLCEPT)	for use in renal and cardiac transplant patients
Nabumetone	restricted to use for arthritis

## CODE 1-DEFINITIONS OF RESTRICTIONS – April 2003

---

(RELAFEN)	
Nelfinavir Mesylate (VIRACEPT)	restricted to use in the treatment of HIV disease
Nevirapine (VIRAMUNE)	restricted to use in the treatment of HIV disease
Nicotine Patch (NICOTROL & NICODERM)	For each 6 week period, the pharmacy needs a certificate of enrollment for the patient from a behavioral modification smoking cessation program. Originally, NICOTROL 15 mg/16 hrs by McNeil was the only patch covered. However, due to shortages, NICODERM is also now covered until such time as NICOTROL is again readily available.
Ofloxacin (FLOXIN)	limited to use in the treatment of sexually transmitted diseases
Olmesartan (Benicar)	Must have failed 2 formulary ACEI except cough
Zanamivir Phosphate (ZAMIFLU)	restricted to use in the treatment of acute influenza viral infection in patients at high risk of complications who also have underlying airway disease or are incapable of using an inhaler device, and have been sick for < 2 days
Oxandrolone (OXANDRIN)	restricted to use in patients with AIDS related wasting
Pantoprazole (PROTONIX)	Limited to use for 90 days from the date of first dispensing
Paroxetine (PAXIL)	restricted to use for Social Anxiety Disorder
Pemoline (CYLERT)	restricted to a diagnosis of Attention Deficit Disorder
Pentamidine Powder (NEBUPENT)	restricted to the prevention of PCP (Pneumocystis pneumonia) if the pt is also infected with HIV and has a previous history of PCP or T4 < 200
Prenatal Vitamins	restricted to women with confirmed positive pregnancy test, and may be continued for 90 days post-partum

**CODE 1-DEFINITIONS OF RESTRICTIONS – April 2003**

---

Protein Bars (REGAIN & SUPPLICAL)	restricted to pts on peritoneal dialysis with low albumins
Raloxifene (EVISTA)	restricted to use in the prevention of osteoporosis in post-menopausal women. An MRF is required if being used for treatment of osteoporosis as opposed to prevention
Renal Vitamins w/Iron	restricted to use for pts with renal disease
Ribavirin & Interferon (REBETRON)	restricted to use in the treatment of Hepatitis C
Rifabutin (MYCOBUTIN)	restricted to use in the prevention of MAC (Mycobacterium Avium Complex) disease in pts with advanced HIV
Riluzole (RILUTEK)	restricted to use in the treatment of ALS (Amyotrophic Lateral Sclerosis)
Ritonavir (NORVIR)	restricted to use in the treatment of HIV disease
Rivastigmine Tartrate (EXELON)	restricted to treatment of mild to moderate dementia of the Alzheimer's type
Salsalate (DISALCID, SALSITAB)	restricted to use in arthritis
Saquinavir (FORTOVASE)	restricted to use in the treatment of HIV disease
Saquinavir Mesylate (INVIRASE)	restricted to use in the treatment of HIV disease
Sevelamer HCl (RENAGEL)	restricted to use in treatment of patients with end-stage renal disease on dialysis
Sodium Chloride jection somatropin (rDNA origin) (SEROSTIM)	limited to use in combination with Heparin lock flush solution for flushing intravenous equipment restricted to use in the treatment of pts wasting from AIDS or with AIDS associated cachexia

**CODE 1-DEFINITIONS OF RESTRICTIONS – April 2003**

---

avudine (ZERIT)	restricted to use in the treatment of HIV disease
Tazarotene (TAZORAC)	restricted to use in the treatment of Psoriasis
Tenofovir Disoproxil Fumerate (VIREAD)	restricted to use in treatment of HIV disease
Tretinoin (RETIN-A)	for use in acne
Valacyclovir HCl (VALTREX)	restricted to use in genital Herpes (HSV II) and shingles (Herpes Zoster)
Valganciclovir HCL (VALCYTE)	restricted to use in the treatment of AIDS & AIDS-related conditions
Valsartan (Diovan)	Must have failed 2 formulary ACEI except cough
Valsartan HCTZ (Diovan HCT)	Must have failed 2 formulary ACEI except cough
amins ADC with or without Fluoride or Iron (TRI-VI-SOL,VI-DAYLIN)	mitted to use in children < 5 years of age
Zalcitabine (HIVID)	restricted to use in the treatment of HIV disease
Zaleplon (SONATA)	restricted to use in the treatment of insomnia
Zanamivir (RELENZA)	restricted to use in the treatment of acute illness (< 2 days duration of symptoms) due to Influenza virus in pts at high risk of complications from influenza. An MFR is required if intended use is for the prevention of influenza after exposure
Zidovudine (RETROVIR, AZT)	restricted to use in the treatment of HIV disease

# QUANTITY LIMITS

Exceptions to the maximum 30-day supply:

A) As of May 1, 2002, the following medications are exempt from the above limit and may be dispensed as 100 tablets/capsules or a 30-day supply, *whichever is greater*. If the medication listed comes in more than one formulation, the 100-quantity limit applies only to the tablet or capsules and not to liquid formulations. These drugs are also designated on the Formulary by a # sign next to the listing.

- |                          |                                      |
|--------------------------|--------------------------------------|
| 1. Acetazolamide         | 16. Isosorbide Dinitrate             |
| 2. Aspirin               | 17. Levothyroxine                    |
