

Santa Barbara Regional Health Authority

FORMULARY LIST AND CODE 1 DEFINITIONS OF RESTRICTIONS

EFFECTIVE AUGUST 2003

The Health Authority mandates generic substitution when an “AB” rated equivalent generic product is available. Generally if a prescriber wants a brand name drug and designates *Do Not Substitute* on the prescription, then a MRF must also be submitted explaining why a brand name drug is required.

Prescription quantities should not exceed a 30-day supply of medication unless specified as an exception to this rule. On the following pages, drugs that must be dispensed as 100-units and are an exception to the 30-day supply rule are indicated by a #.

SBRHA FORMULARY LIST – August 2003

A

A-200 Pyrinate
 Abacavir*
 Abacavir, Lamivudine, & Zidovudine*
 Acarbose
 Accolate
 Accupril
 Accuzyme
 Acebutolol
 Acetaminophen
 Acetazolamide #
 Acetic Acid
 Acetic Acid w/Aluminum Acetate
 Acetic Acid w/Hydrocortisone
 Acetical
 Acetohexamide
 Acetylcysteine

 Albuterol
 Alclometasone Dipropionate
 Aldactazide
 Aldactone #
 Aldara
 Aldesleukin
 Aldomet
 Aldoril
 Alemtuzumab
 Alendronate Sodium
 Alesse
 Alitretinoin*
 Alkeran
 Allopurinol
 Almotriptan
 Alomide Ophth.
 Alphagan P
 Alrex
 Altace
 Alternagel
 Aitretamine
 Alu-Cap
 Ju-Tab
 Alum. Hydroxide Gel

Alum. Hydroxide Magnesium, Hyd. & Simethicone
 Alupent
 Amantadine
 Amaryl
 Ambenonium Chloride
 Ambenyl
 Ambien 10mg only
 Amikacin Sulfate
 Amikin
 Aminophylline
 Amiodarone
 Amitriptyline
 Amitriptyline HCL, Perphenazine
 Amlodipine/Benazepril HCL
 Amlodipine Besylate
 Amoxicillin/Clavulanate Potassium
 Amoxicillin Trihydrate
 Amphetamine, Mixed Salts*
 Amphojel
 Amphotericin B
 Ampicillin
 Amprenavir*
 Anafranil
 Anagrelide HCL
 Anastrozole
 Ancef
 Ansaïd*
 Antabuse
 Antacids (most)
 Antiminth
 Antipyrine and Benzocaine
 Antivert
 Anturane
 Anzemet
 APAP
 APAP w/Codeine
 Apraclonidine
 Apresoline
 Aquamephyton
 Aramine
 Arava
 Aredia
 Aricept*
 Arimidex
 Aristocort
 Arsenic Trioxide
 Artane
 ASA
 Asparaginase
 Aspirin #
 Aspirin Chewable
 Aspirin w/Codeine
 Aspirin - long acting
 Astelin
 Atapryl
 Atarax
 Atenolol #
 Ativan
 Atovaquone*
 Atropine
 Atropisol
 Atrovent
 Augmentin

CODE 1 DEFINITIONS OF RESTRICTIONS

Effective August 2003

Generic (TRADE) Name

Abacavir (ZIAGEN)	restricted to use in treatment of HIV disease
Abacavir/Lamivudine/Zidovudine (TRIZIVIR)	restricted to use in treatment of HIV disease
Acyclovir (ZOVIRAX)	restricted to use in treatment of 1) Genital Herpes (HS II) 2) Immunocompromised patients 3) Shingles (Herpes Zoster)
Alitretinoin (PANRETIN)	restricted to use in the treatment of cutaneous lesions of Kaposi's Sarcoma in AIDS pts
Amphetamine, Mixed Salts (ADDERAL)	restricted to a diagnosis of Attention Deficit Disorder 1) May dispense qty of 90 for patients age \leq 18 years
Amprenavir (AGENERASE)	restricted to use in treatment of HIV disease
Atovaquone (MEPRON)	for use only in treatment or prevention of Pneumocystis pneumonia in patients who are intolerant of trimethoprim-sulfamethoxazole
Azithromycin (ZITHROMAX)	1) 600 mg tablets restricted to use in prevention of Mycobacterium infections 2) Suspension 200mg/5cc restricted to < 8 yrs old, or failure of a trial of first line Antibiotic at any age
Budesonide Suspension (PULMICORT RESPULES)	Restricted to use in children < 8 yrs of age
Bupropion SR for smoking cessation (ZYBAN)	pharmacy needs to have a letter or certificate of enrollment verify that the pt is in a behavioral modification smoking cessation program

CODE 1-DEFINITIONS OF RESTRICTIONS – August 2003

Carvedilol (COREG)	restricted to having CHF
Cefaclor (CECLOR)	for use only in pts> 50 yrs old with lower respiratory tract infections (RTI)
Cefdinir (OMNICEF)	restricted to use in pts< 8 yrs old
Cefixime (SUPRAX)	1) liquid: for use only in pts< 8 yrs old with OM 2) tablet: restricted to the use in treatment of Neisseria gonorrhoeae
Cefprozil (CEFZIL)	restricted for use in pts< 8 yrs of age
Chlordiazepoxide (LIBRIUM)	for use only in treatment of alcoholism
Cidofovir (VISTIDE)	restricted to use in treatment of HIV disease
Cilostazol (PLETAL)	1) for use in pts> 65 yrs of age diagnosed with intermittent claudication 2) for diabetic pts of any age with intermittent claudication
Ciprofloxacin (CIPRO)	for use in the treatment of: 1) pts> 50 yrs old with lower RTI 2) osteomyelitis 3) pulmonary exacerbations in pts with Cystic Fibrosis 4) Urinary tract infections (UTI)
Ciprofloxacin Extended release (CIPRO XR)	restricted to use in uncomplicated urinary tract infection
Clarithromycin (BIAXIN)	restricted to: 1) infections caused by Mycobacterium 2) Active duodenal ulcer associated with Helicobacter Pylori
Clonazepam (KLONOPIN)	restricted to the diagnoses of schizophrenia or seizures
Clopidogrel Bisulfate (PLAVIX)	limited to treatment of pts with documented atherosclerosis such as recent strokes, MI or established peripheral vascular disease

CODE 1-DEFINITIONS OF RESTRICTIONS – August 2003

Cyclosporine (NEORAL, & SANDIMMUNE)	restricted to use for organ transplant
Delaviridine Mesylate (RESCRIPTOR)	restricted to use in the treatment of HIV disease
Dextroamphetamine Sulfate (DEXEDRINE)	restricted to the diagnosis of ADD 1) May dispense qty of 90 for patients age \leq 18 years
Diazepam (VALIUM)	restricted to use in Cerebral Palsy, Athetoid states or spinal cord degeneration
Diclofenac Sodium (VOLTAREN)	restricted to use for arthritis
Didanosine (VIDEX, Ddl)	restricted to use in the treatment of HIV disease
Diflunisal (DOLOBID)	restricted to use for arthritis
Donepezil HCl (ARICEPT)	restricted to treatment of mild to moderate dementia of the Alzheimer's type
Joxycycline Hyclate (PERIOSTAT)	20mg tablet or capsule is restricted for use as an adjunct therapy to aggressive local dental measures in adults with periodontitis
Dronabinol (MARINOL)	restricted to use in the treatment of anorexia associated with weight loss in pts with AIDS
Efavirenz (SUSTIVA)	restricted to use in the treatment of HIV disease disease
Epoetin alfa (EPOGEN or PROCRIT)	for use in the treatment of anemia due to: 1) Zidovudine therapy 2) cancer chemotherapy 3) or chronic renal failure
Ezetimibe (Zetia ZETIA)	restricted to must be on a HMG-CoA reductase inhibitor ("statin" therapy)
Famciclovir (FAMVIR)	restricted for use to: 1) Genital Herpes 2) Shingles (Herpes Zoster) 3) Herpes Simplex infection in HIV pt
Ibuprofen (NALFON)	restricted to use for arthritis

CODE 1-DEFINITIONS OF RESTRICTIONS – August 2003

Fluconazole (DIFLUCAN)	1) Cancer and HIV patients 2) for the treatment of vaginal candidiasis 3) treatment of Coccidioides Immitis infections
Flurbiprofen (ANSAID)	restricted to use for arthritis
Foscarnet Sodium (FOSCAVIR)	restricted to use in treatment of HIV disease
Galantamine Hydrobromide (REMINYL)	restricted to treatment of mild to moderate dementia of of the Alzheimer's type
Ganciclovir (CYTOVENE)	restricted to use in treatment of AIDS related conditions
Immune Globulin (GAMMAGARD, IVEEGAM, SANDOGLOBULIN)	for use only in the pediatric population (<13) with HIV disease
Immune Globulin Rh ₀ (BAYRHO-D)	restricted for use in the treatment of ITP secondary to HIV disease
Indinavir Sulfate (CRIXIVAN)	restricted to use in the treatment of HIV disease
Interferon alfacon-1 (INFERGEN)	restricted to use in the treatment of chronic hepatitis C infection
Irbesartan (AVAPRO)	must have failed 2 formulary ACEI except cough
Irbesartan HCTZ (AVALIDE)	must have failed 2 formulary ACEI except cough
Itraconazole (SPORANOX)	restricted to use in patients with an AIDS related condition
Ketoprofen (ORUDIS)	restricted to use for arthritis
Lactulose (CEPHULAC, DUPHALAC, ENULOSE)	restricted to treatment of liver disease
Lamivudine (EPIVIR)	restricted to use in the treatment of HIV disease
Lamivudine, & Zidovudine (COMBIVIR)	restricted to use in the treatment of HIV disease
Luprolide Acetate (LUPRON)	only for use in treatment of cancer

CODE 1-DEFINITIONS OF RESTRICTIONS – August 2003

Lidocaine/Prilocaine (EMLA)	restricted for use in patients < 21 yrs of age and require a needle procedure
Linezolid (ZYVOX)	may only be used following discharge from inpt. hospitalization when pt was on Linezolid or Quinupristin/Dalopriston immediately prior to discharge. Max of a 21 day supply
Lopinavir & Ritonavir (KALETRA)	restricted to use in the treatment of HIV disease
Losartan (COZAAR)	Must have failed 2 formulary ACEI except cough
Losartan HCTZ (HYZAAR)	Must have failed 2 formulary ACEI except cough
Methylphenidate HCL immediate & sustained release (RITALIN)	restricted for use in Attention Deficit Disorder. 1) May dispense qty of 90 for patients age \leq 18 years
Methylphenidate HCL extended release (CONCERTA)	restricted for use in Attention Deficit Disorder 1) May dispense qty of 90 for patients age \leq 18 years
Metoprolol succinate (TOPROL XL)	restricted to having CHF
Mitoxantrone (NOVANTRONE)	restricted to use in the treatment of Cancer
Montelukast (SINGULAR)	restricted to use for asthma only (Allergic rhinitis requires a MRF)
Moxifloxacin (AVELOX)	restricted to use in pts > 50 yrs old with lower respiratory tract infection
Mycophenolate Mofetil (CELLCEPT)	for use in renal and cardiac transplant patients
Nabumetone (RELAFEN)	restricted to use for arthritis
Nelfinavir Mesylate (VIRACEPT)	restricted to use in the treatment of HIV disease
Nevirapine (VIRAMUNE)	restricted to use in the treatment of HIV disease

CODE 1-DEFINITIONS OF RESTRICTIONS – August 2003

Nicotine Patch (NICOTROL & NICODERM)	For each 6 week period, the pharmacy needs a certificate of enrollment for the patient from a behavioral modification smoking cessation program. Originally, NICOTROL 15 mg/16 hrs by McNeil was the only patch covered. However, due to shortages, NICODERM is also now covered until such time as NICOTROL is again readily available.
Ofloxacin (FLOXIN)	limited to use in the treatment of sexually transmitted diseases
Olmesartan (BenicarBENICAR)	Must have failed 2 formulary ACEI except cough
Oseltamivir Phosphate (TAMIFLU)	restricted to use in the treatment of acute influenza viral infection in patients at high risk of complications who also have underlying airway disease or are incapable of using an inhaler device, and have been sick for < 2 days
Oxandrolone (OXANDRIN)	restricted to use in patients with AIDS related wasting
Pemoline (CYLERT)	restricted to a diagnosis of Attention Deficit Disorder
Pentamidine Powder (NEBUPENT)	restricted to the prevention of PCP (Pneumocystis pneumonia) if the pt is also infected with HIV and has a previous history of PCP or T4< 200
Prenatal Vitamins	restricted to women with confirmed positive pregnancy test, and may be continued for 90 days post-partum
Protein Bars (REGAIN & SUPPLICAL)	restricted to pts on peritoneal dialysis with low albumins
Raloxifene (EVISTA)	restricted to use in the prevention of osteoporosis in post-menopausal women. An MRF is required if being used for treatment of osteoporosis as opposed to prevention
Renal Vitamins w/Iron	restricted to use for pts with renal disease
Ribavirin & Interferon (REBETRON)	restricted to use in the treatment of Hepatitis C
Rifabutin (MYCOBUTIN)	restricted to use in the prevention of MAC (Mycobacterium Avium Complex) disease in pts with advanced HIV
Riluzole (RILUTEK)	restricted to use in the treatment of ALS (Amyotrophic Lateral Sclerosis)

CODE 1-DEFINITIONS OF RESTRICTIONS – August 2003

Ritonavir (NORVIR)	restricted to use in the treatment of HIV disease
Rivastigmine Tartrate (EXELON)	restricted to treatment of mild to moderate dementia of the Alzheimer's type
Salsalate (DISALCID, SALSITAB)	restricted to use in arthritis
Saquinavir (FORTOVASE)	restricted to use in the treatment of HIV disease
Saquinavir Mesylate (INVIRASE)	restricted to use in the treatment of HIV disease
Sevelamer HCl (RENAGEL)	restricted to use in treatment of patients with end-stage renal disease on dialysis
Sodium Chloride injection	limited to use in combination with Heparin lock flush solution for flushing intravenous equipment
Somatropin (rDNA origin) (SEROSTIM)	restricted to use in the treatment of pts wasting from AIDS or with AIDS associated cachexia
Stavudine (ZERIT)	restricted to use in the treatment of HIV disease
Tazarotene (TAZORAC)	restricted to use in the treatment of Psoriasis
Tenofovir Disoproxil Fumerate (VIREAD)	restricted to use in treatment of HIV disease
Tretinoin (RETIN-A)	for use in acne
Valacyclovir HCl (VALTREX)	restricted to use in genital Herpes (HSV II) and shingles (Herpes Zoster)
Valganciclovir HCL (VALCYTE)	restricted to use in the treatment of AIDS & AIDS-related conditions
Valsartan (DIOVAN)	Must have failed 2 formulary ACEI except cough
Valsartan HCTZ (DIOVAN HCT)	Must have failed 2 formulary ACEI except cough
Vitamins ADC with or without Fluoride or Iron (TRI-VI-SOL, VI-DAYLIN)	limited to use in children < 5 years of age

CODE 1-DEFINITIONS OF RESTRICTIONS – August 2003

Zalcitabine (HIVID)	restricted to use in the treatment of HIV disease
Zanamivir (RELENZA)	restricted to use in the treatment of acute illness (< 2 days duration of symptoms) due to Influenza virus in pts at high risk of complications from influenza. An MFR is required if intended use is for the prevention of influenza after exposure
Zidovudine (RETROVIR, AZT)	restricted to use in the treatment of HIV disease

QUANTITY LIMITS

Exceptions to the maximum 30-day supply:

A) As of May 1, 2002, the following medications are exempt from the above limit and may be dispensed as 100 tablets/capsules or a 30-day supply, *whichever is greater*. If the medication listed comes in more than one formulation, the 100-quantity limit applies only to the tablet or capsules and not to liquid formulations. These drugs are also designated on the Formulary by a # sign next to the listing.

- | | |
|--------------------------|--------------------------------------|
| 1. Acetazolamide | 16. Isosorbide Dinitrate |
| 2. Aspirin | 17. Levothyroxine |

In accordance with CCR, Title 22, Section 51513 (b) (2), pharmacy claims for less than 100 tablets/capsules of the drugs listed above shall be paid at the ingredient cost only. Exceptions are with the initial prescription, or when prior authorization is obtained, or if the patient is in a skilled nursing or intermediate care facility.

DRUGS WITH QUANTITY DISPENSING LIMITS

<u>Drug</u>	<u>Quantity</u>
1) Alavert (rapid dissolving tabs only)	180 units allowed per year
2) Axert	6 tablets/30days
3) Azithromycin (ZITHROMAX) 250 mg tablet or capsules	maximum of 6 pills/dispensing
4) Bupropion SR (ZYBAN)	60 pills/month for 3 months
5) Carisprodol (SOMA)	limit to 3/day or 90/month
6) Cefixime (SUPRAX) 400 mg tablet	1 pill/month
7) Ciprofloxacin(extended release)	3 day quantity limit per prescription
8) Claritin (OTC only) Liquid Oral Tablets	960 ml. Allowed per year 180 units Allowed per year
9) Dalteparin (Fragmin) 2500 IU prefilled syringe 5000 IU prefilled syringe	20 syringes/dispensing & 2 dispensings/yr 10 syringes/dispensing & 2 dispensings/yr 10 syringes/dispensing & 2 dispensings/yr
10) Dolasetron Meysylate (ANZEMET) 50 and 100 mg tablets 100 mg/5cc	4 pills/month 5cc/month
11) Enoxaparin (LOVENOX)	20 syringes/dispensing & 2 dispensings/yr
12) Granisetron (KYTRIL) 1 mg tablet 1 mg/cc	8 pills/month 1cc/month
13) Preven Pills and pregnancy test	1 kit/month
14) Linezolid (ZYVOX) 600 mg tablet	42 tablets/month
15) Ondansetron (ZOFRAN) 4 and 8 mg tablets and ODT 2-mg/cc	15 tablets/month 32 mg/month
16) Oseltamivir Phosphate (TAMIFLU) 75 mg capsule	10 capsules/month
17) Rizatriptan(Maxalt)	6 tablets/30 days
18) Rizatriptan(Maxalt MLT)	3 tablets/30 days
19) Somatropin-rDNA origin (SEROSTIM)	limited to 3 months of therapy
20) Sumatriptan (IMITREX) Injection Tablets Nasal Spray	2/month 9/month 6 spray containers/month
21) Tinzaparin Sodium (INNOHEP)	5 vials/dispensing & 2 dispensings/yr
22) Dextroamphetamine/amphetamine mixture (Generic Adderal)	90 day dispensing age ≤ 18 years
23)Dextroamphetamine(Generic Dexedrine)	90 day dispensing age ≤ 18 years
24) Methylphenidate (Generic Ritalin)	90 day dispensing age ≤ 18 years
25) Methylphenidate SR (Generic Ritalin SR)	90 day dispensing age ≤ 18 years
26) Methylphenidate CD (Metadate CD)	90 day dispensing age ≤ 18 years
27) Methylphenidate ER (Generic Metadate ER)	90 day dispensing age ≤ 18 years
28) Methylphenidate ER (Concerta)	90 day dispensing age ≤ 18 years
29) Zolpidem 10mg	14 tabs/month
