

PRIMARY CARE PROVIDER AND REFERRAL PROVIDER OBLIGATIONS

This section of the Provider Manual was established to educate contracted Primary Care Physicians (PCPs) and Referral Physicians (specialists) about processes specific to their provider type. These processes, as set out in this section, will not be included in Provider Manuals sent to providers that are not PCPs or Referral Physicians.

This Provider Manual contains information that provider offices need to know in order to assist them in working with CenCal Health. Changes to this Manual will be limited to the extent possible, but if material changes to it are required they will be shared with providers prior to the change becoming effective.

This Provider Manual is also available for reference and downloading on CenCal Health's web site at www.cencalhealth.org/forProviders/Manuals.
