

## **Specialty Pharmacy Program**

CenCal Health utilizes a Specialty Pharmacy Program that covers injectable medications used to treat chronic diseases. The following Therapeutic Classes are covered under CenCal Health's Specialty Pharmacy Program:

- Multiple Sclerosis
- Rheumatoid Arthritis
- Hepatitis C
- RSV (Synagis)
- Growth Hormone Deficiency
- Psoriasis
- Antisera
- Hemophilia
- Oral Oncolytics
- Pulmonary Arterial Hypertension

CenCal Health utilizes two vendors for the Specialty Pharmacy Program: Walgreens Specialty Pharmacy and CuraScript. All prescriptions for the above categories, with the exception of Pulmonary Arterial Hypertension, should be processed through Walgreens. Prescriptions for Pulmonary Arterial Hypertension should be processed through CuraScript.

Specialty Pharmacy Order Forms for each therapeutic class are available to download at [www.cencalhealth.org](http://www.cencalhealth.org) in the restricted section of the website which requires a user account. Please contact the Webmaster at [webmaster@cencalhealth.org](mailto:webmaster@cencalhealth.org) for a password to access this area of the website.

If you have any questions regarding this program under CenCal Health's pharmacy benefit, please contact the Pharmacy Department at (800) 421-2560, extension 1080 or contact Walgreens Specialty Pharmacy Services directly at (888) 347-3416 or CuraScript directly at (866) 474-8326.
