

**Pharmacy Updates  
March/April 2018**

CenCal Health has made several changes to our Formulary based on clinical review, provider interest, cost and utilization analysis. All of the changes represent development and growth of our current Formulary thus giving more choices to the prescribing physician. The changes are represented in summary on the chart below.

| Drug   | Class                                      | Formulary Status                | Restrictions / Limits                                | Implementation Date |
|--|--|---------------------------------|--|---------------------|
| <b>Formulary Additions</b>   |  |                                 |  |                     |
